

WE'RE EXCITED TO ANNOUNCE THE

QuickMAR

HealthCheck

Now Available Exclusively for
Cononus Customers!

Monitor your Medication Management process with real time, at-a-glance reporting.
Ask your Nurse Consultant or the Cononus ePharmacy team to learn more.

QuickMAR manages the entire medication life cycle. Now, it's smart enough to tell you about the health of your medication management process. The QuickMAR HealthCheck identifies MAR deficiencies so that you can address them proactively.

Cononus' team of ePharmacy professionals uses the HealthCheck to monitor your system performance on a periodic basis. Now that same report is available to you. Whether it's a local nursing staff conducting a self-audit, or a regional nurse monitoring individual facilities, the QuickMAR HealthCheck is an invaluable tool that flags opportunities for training and improvement.

It takes only three clicks to
access your HealthCheck:
