# NAVIGATING ROP PHASE II & WHAT IT MEANS TO YOU

Phase I is in full effect and now Phase II brings even more challenges. The State Operations Manual is 796 pages long and the complexity can be overwhelming. **QAPI** plans are due, **Antibiotic Stewardship** programs should be implemented, **Person Centered Care Plans** should be in place, and **Facility Assessment** tools are essential.

**Do you have everything in place for the new computer-based survey process?**

# PREPARING FOR RoP PHASE III

RoP Phase I and II have been issued and we're starting to see their effect in survey results.

Phase III is coming on November 28<sup>th</sup>. There are new & expanded requirements to focus on. This doesn't mean Phase I & II go away.

## Are you ready?
