

What Insights Can an Operational Analysis Give You?

With an operational analysis from Consonus Co-Pilot, your real-time data is automatically collected and then leveraged to create actionable plans within key pay-for-performance areas, resulting in stronger payer relationships and greater market share for your facility.

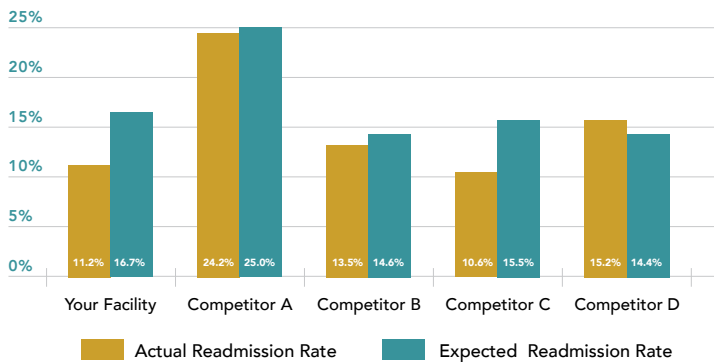

Market Share Analysis

- What % of the Medicare Business do you have?
- Is someone else taking your market share?
- What is your Medicare Revenue compared to your competition?

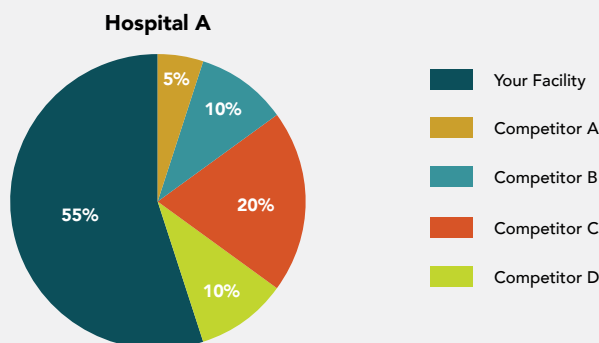

Quality Measures

- How is your 5 Star Rating compared to the competition?
- Are you above or below national averages for QMs?
- Have your competitor's 5-Star ratings improved or declined in the last month?

Readmissions

- Are your readmission rates below expectations?
- Who has the higher readmission rate? You? The Competition?
- Do you know your readmission trends?

Hospital Discharge Patterns

- Where are your local hospitals discharging patients to?
- Are your competitors getting more referrals than you?
