

# CARMAN MEADE

**REGIONAL VICE PRESIDENT OF OPERATIONS**

*CONSONUS HEALTHCARE*

Higher revenues. Increased productivity and cost effectiveness. Better customer service. Achieving tangible results like these have been the consistent theme running through Carman Meade's health care career, and a focus she brings as Regional Vice President of Operations for Consonus Healthcare in the Midwest.

Carman facilitates communications between customers and Consonus, and works directly with rehab directors on issues ranging from staffing and regulation to reimbursement. She gets her greatest satisfaction from finding and developing staff who share the company's unique philosophy and have a passion for the people they serve.

Before joining Consonus in 2011, Carman held leadership positions with NovaCare, Kindred Healthcare and Orthopaedic Neurological Rehabilitation, and she's also been a college gerontology professor. She holds a Bachelor of Science in Organizational Management and Leadership from Friends University,

Carman loves public speaking, and is a frequent presenter on topics such as crisis management, problem resolution and the many rewards of participation in the Consonus New Chapters program—one of her personal favorites.

As the parent of a hearing-impaired child who also suffers from juvenile diabetes, she's extremely involved with the Heartland Family Hearing Center and serves on several American Diabetes Foundation committees. Leisure time is mostly spent with her husband supporting their three rugby-, soccer- and softball-playing children, or reenergizing as a family on Table Rock Lake.
