

DAVID R. LEWIS R.PH.

CHIEF OPERATING OFFICER
CONSONUS HEALTHCARE

“Opportunities to learn are as plentiful as the air we breathe. Breathe often and breathe deeply.” Dave Lewis doesn’t know exactly who said that, but it has become one of his favorite motivational quotes, capturing his energy and passion for constant discovery and innovation.

Dave served as President of Consonus Healthcare from 2000, when it began, until 2018, with direct oversight of the pharmacy division. Under his leadership, the company grew to provide pharmacy services to more than 300 senior care facilities in five states, and currently fills more than two million prescriptions per year.

Now as Chief Operating Officer for Consonus, Dave manages all ancillary services, including pharmacy, rehab, consulting, sales and data analytics. Beyond promoting company culture and vision, his responsibilities include strategic planning, operational results and leadership recruitment and development.

Before joining Consonus, Dave’s reputation for building thriving long-term care businesses began when he was General Manager of Evergreen Pharmaceutical Services, growing it from 8,000 prescriptions per month to 60,000. He also previously served as Vice President and Assistant Administrator at Holladay Park Medical Center.

Dave graduated from Oregon State University with a Bachelor of Science degree in Pharmacy. He serves as secretary for the Senior Care Pharmacy Coalition, and on advisory boards for the National Community Pharmacists Association and Managed Health Care Associates.

Outside Consonus, he’s an avid woodworker, and also enjoys spending time with his wife, children and grandchildren. As breast cancer has touched several people in his life, Dave maintains strong personal support for the Susan G. Komen for the Cure organization, and is active with the Vital Life Foundation.
