Tasha Jeske, BSN, R.N.

Nurse Consultant

GET TO KNOW TASHA

While working in customer tech support, a family health crisis inspired Tasha to pursue nursing instead, where she could help others at a higher level. Her career has included varied positions in emergency, neonatal intensive care and senior care, and she feels each one taught her different skills and greater compassion. Now with Consonus, she provides clinical support and training to client facilities, and enjoys the impact she can make in the lives of patients and families. "I consider patient safety to be my primary responsibility," she says.

The Consonus Consulting and Leadership Team is made of seasoned and professional pharmacists, nurses, and long term care professionals. Together we strive to be a valued part of your team. We partner with our client facilities and communities to offer the very best for our residents.
