### **MELISSA ROBINETT AND TERRI FAGAN RECEIVE PAC TRAINER CERTIFICATION**

**MILWAUKIE, Ore. – June 3, 2016** – [Consonus Healthcare](http://www.consonushealthcare.com) is proud to announce the recent Teepa Snow Positive Approach™ to Care (PAC) Certification of Melissa Robinett and Terri Fagan. Melissa and Terri are instrumental leadership members within Consonus Pharmacy Services and serve as Director of Nurse Consulting and Director of Clinical Services, respectively.

With PAC Trainer Certification, Melissa and Terri are approved to educate others in PAC philosophy with respect to dementia-related awareness, knowledge and skill development within a classroom, community or support group setting.

Commented Terri: “We believe this PAC Trainer Certification embodies Consonus Pharmacy Services’ core value of serving the senior community as a trusted advisor and dedicated healthcare provider. Within a long-term care pharmacy environment, Melissa and I are among a very few lead consultants that have obtained this certification and we look forward to incorporating this education within our existing area of expertise. Our team currently has two additional nurse consultants in the process of receiving PAC Trainer Certification and we will continue to expand our dementia-related knowledge moving forward.”

#### **About Consonus Healthcare Services**

Operating for over 25 years, Consonus provides consulting, rehab, pharmacy and post-acute care transformation (PACT). Consonus’ comprehensive pharmacy services are designed specifically for the long-term care industry, which allows facilities to maximize occupancy, increase resident retention and improve residents' functional independence. Based in Portland, Ore., Consonus serves more than 300 facilities nation-wide. For more information visit, [www.consonushealth.com](http://www.consonushealth.com)
