

FOR IMMEDIATE RELEASE

**PATHWAY HEALTH SELECTED AS TRAINING AND IMPLEMENTATION PARTNER
FOR THE CONSONUS CO-PILOT APPLICATION**

LAKE ELMO, Minn. and MILWAUKIE, Ore., October 09, 2018 — Pathway Health has been selected by **Consonus Healthcare** as its **implementation, training and ongoing support services partner** for its new app, **Consonus Co-Pilot**. This tool was created by Consonus Healthcare to address a need discovered by its sister company, **Marquis Companies**, for more accurate data reporting in its 24 skilled nursing facilities (SNFs). Through this partnership, Consonus Healthcare will leverage Pathway Health's vast network of more than 150 clinicians and technology experts to provide comprehensive implementation and training support.

"We were providing actionable insight to hundreds of users, but our customers were having trouble executing," stated **Phil Fogg Jr., CEO of Marquis Companies**. "We needed a trusted partner. An expert in the post-acute world," Fogg continued. "We selected Pathway Health due to its deep knowledge of the post-acute care continuum and nationwide network of expert consultants."

Consonus Co-Pilot focuses on SNFs' needs based on the changes resulting from the **Affordable Care Act (ACA)**. The Consonus Co-Pilot platform offers live data for most U.S. SNF operators and provides actionable plans within key pay-for-performance areas, including hospital readmission rates, therapy outcome solutions, customer satisfaction and quality outcomes. Prior to this tool, health systems and managed care payers depended on obsolete CMS claims data for tracking hospital readmissions.

“Often this inaccurate data was used as the gauge for our industry’s value in the health care continuum,” stated **Anthony Laflen, Director of Data Analytics at Consonus Healthcare**. “We needed a solution that provided accurate analytics in real time. Data that reflected all patients, not just CMS Medicare patients. Live data.”

“We look forward to supporting Consonus’ innovative application,” said **Pathway Health Chief Executive Officer Peter B. Schuna**. “As providers continue to implement strategies to improve patient outcomes while lowering costs, leveraging state-of-the-art technology will play an important role in providing quality, patient-centered care.”

About Consonus Healthcare

Operating for over 25 years, Consonus provides consulting, rehab, pharmacy and post-acute care transformation (PACT) services for the long-term care industry. Run by a 4th generation nursing home administrator and based in Portland, Ore., Consonus continues to evolve by using real time data analytics to advance customer and patient outcomes. Consonus serves more than 300 facilities nationwide. For more information visit, www.consonushealth.com.
