

CONSONUS PHARMACY

# YOUR PROVEN PARTNER

## WHO IS CONSONUS PHARMACY? WHY ARE THEY THE BEST PARTNER DURING THE COVID-19 CRISIS?

The true cost of pharmacy is about much more than the price of the pills. When a pharmacy provider executes well, it improves quality of care and reduces costs. Consonus Pharmacy understands this and aligns our services to create a partnership that goes beyond the pills.

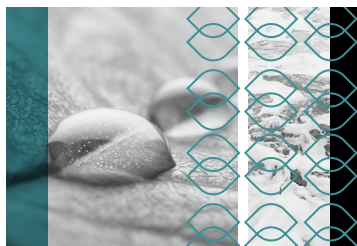

The COVID-19 pandemic has tested the senior care industry in ways we would have never imagined. There's no playbook for these unprecedented times.

**Consonus Pharmacy is not just another vendor -- we're a partner.**

With Marquis Companies as our parent company and Phil Fogg as our CEO and Vice Chair of American Healthcare Association, this allows Consonus Pharmacy to view COVID-19 from a uniquely qualified lens and to share best practices with customers.

Learn more about how Consonus Pharmacy demonstrates resilience, adapts to uncertainties, and maintains focus on patient safety during this COVID-19 crisis. On the following page are some examples of how we partner with our customers.

# YOUR PROVEN PARTNER

**Demonstrates Agility & Resiliency:** despite challenging times, Consonus Pharmacy continues to provide timely and accurate medication deliveries. Contactless delivery protocols are set in place to ensure staff and resident safety and minimize the spread of COVID-19.

**Maintains Stable Medication Supply:** Consonus Pharmacy has the meds you need, when you need them, despite industry shortages. Good communication and data driven decision-making play a role in maintaining adequate supply.

**Provides Uninterrupted Clinical Services:** our dedicated team of nurse and pharmacist consultants may not have the opportunity to conduct in-person facility visits but they leveraged technology to continue to provide oversight of patient medication profiles, meet ROP requirements, and recommend adjustments to remove medications and reduce unnecessary exposure and conserve PPE. Consultant team members also provide recommendations, equipment and supplies to support customer isolation units for COVID-19 patients.

**Offers Consistent Communication & Education:** regulations and guidance from CMS, CDC, and local state health authorities drive new policies and requirements. Consonus Pharmacy remains diligent in staying up to date on the latest information, shares best practices and infection control policies, and helps create custom revisions to corporate policies, rather than just sharing public links.

**Implements Positivity Campaigns for the Industry:** To encourage recognition and support for senior care staff and residents, a 3-part positivity campaign was created [#HealthcareHeroes](#) [#VirtuallyVital](#) [#SendSeniorsLove](#). Program support and materials are provided to help lift the spirits of those working on the frontlines and those facing isolation.

## CONSONUS PHARMACY IS YOUR PROVEN PARTNER THROUGH GOOD TIMES AND BAD.

Don't rely on just another vendor, depend on a partnership.
