

Vaccine Approval Process
What it takes to get the “Green Light”
Status updated as of 12.14.2020

	CDC Phase 1A Approval	State Approval	State Activation	FDA Approval	Western States Coalition Approval
Oregon					
Nevada					
Washington					
California					

- **CDC Phase 1A Approval** - Consonus demonstrates all required capabilities to manage vaccine product and execute clinics
- **State Approval** - State health authority approves Consonus as Phase 1A provider
- **State Activation** - State health authority activates their LTC Vaccine program with Consonus
 - (Note, first 3 are sufficient enough to begin Road to Recovery preparations)
- **FDA Approval** - FDA review board screens all trial data and issues Emergency Use Authorization for a specific vaccine
- **Western States Coalition Approval** - Independent Clinical Review team comprised of members from 7 western states reviews trial data and endorses EUA
