

# Comprehensive Strategy for Vaccine Continuity in the Long Term Care Population

**THE GOAL:** Maintain  $\geq 70\%$  full vaccination protection in LTC facilities to:

- 1) Re-open to visitors
- 2) Restore normal operations and social activities for residents and staff
- 3) Continue to reduce community infection rates and hospital admissions

**THE PATH:** Vaccinate all new admits and new staff. Continue to promote vaccinations for existing staff. Vaccinate at least one designated visitor per resident.

**2,000**  
Doses/wk  
New Admissions and Staff

**2,000**  
Doses/wk  
Unvaccinated Residents and Staff

**4,500**  
Doses/wk  
Life Enrichment Visitors

**VACCINE CONTINUITY PROGRAM:** Shift from Clinics to Dispensing Model, Leverage existing workflows and optimize logistics for both populations.

**POLICY CONSIDERATIONS:** Acute Provider as Vaccinator, LTC Pharmacy Supply and Oversight, LTC Facility as Vaccinator (Emergency Supply Provisions Needed), and Funding.
