

# LENDL NAVARRO, PHARM.D.

**GENERAL MANAGER—CALIFORNIA, ARIZONA, NEVADA**

*CONSONUS HEALTHCARE – PHARMACY*

Lendl has served in the long-term care pharmacy profession since 2015. When the opportunity came to join Consonus, she moved all the way from the East Coast to take advantage of the opportunity. "I knew they do a great job of caring for people, whether it's patients, customers or employees on the front lines," she says.

As general manager for Consonus Pharmacy in California, Arizona and Nevada, Lendl is responsible for managing all operations, with a focus on driving quality and revenue, streamlining processes and developing customer relationships. "I enjoy the people," she says. "It's rewarding to help create a safe and enjoyable workplace for staff to be part of each day."

Lendl earned her Doctor of Pharmacy degree at South University, after graduating with a Bachelor of Science in Biology from Florida State University. Outside of work, she loves spending time outdoors, and the trips she and her mom have taken near and far, particularly to Paris. As a loyal Seminole, fall Fridays usually find her wearing any combination of Garnet and Gold.

Ever since Lendl was college age, she's been a constant supporter of the Leukemia and Lymphoma Society. "I believe in their mission, and have seen drugs come to market as a result of their work with blood cancer research," she says.
